

**000-551**

**IBM Optim Implementation for Distributed Systems (2009)**

**Exam number/code:** 000-551

**Exam name:** IBM Optim Implementation for Distributed Systems (2009)

**Questions & Answers:** 122 Q&A

**Related Certifications:** [Certified Specialist](#)

**Hundreds of people each day pass their IT certification exams with Testking guaranteed certification resources and training kits.**

Use the [IBM 000-551](#) questions and answers to practice for your next IBM certification exam. If you don't pass – you don't pay! Testking has the first and only 100% product satisfaction and exam passing guarantee. Advanced practice questions and answers help drive the information into your routine thinking and surpass 000-551 brain dumps in retention and skill building.

[IBM](#) 000-551 exam answers and practice questions can be used at home or office, installable on up to two PCs, or print the questions and answers to take with you and train on-the-go! IBM 000-551 preparation tools are the perfect fit for any IBM certification candidate with [000-551](#) training materials for every level of entry.

### **Exam Engine Features**

Control your IT training process by customizing your practice certification questions and answers. The fastest and best way to train.

- \* Truly interactive practice tests
- \* Create and take notes on any question
- \* Retake tests until you're satisfied
- \* YOU select the areas of the exam to cover
- \* Filter questions for a new practice test experience each time
- \* Re-visit difficult questions

**Exam: 000-551 Certification Questions & Answers**

**Question 1:**

Which databases are directly supported on distributed platforms for archiving by Optim?

- A. Sybase, Oracle, Informix, Progress, DB2 LUW, MySQL, MS SQL Server
- B. Informix, MS SQL Server, Sybase, DB2 LUW, Oracle
- C. MS Access, MySQL, Progress, DB2 LUW, Oracle, Informix, Sybase
- D. DB2 LUW, Progress, Oracle, MS SQL Server, MS Access

**Answer: B**

**Question 2:**

You must have a password to review and change Product Options. What is the default password?

- A. "null"
- B. "softtech"
- C. "optim"
- D. "ibm"

**Answer: C**

**Question 3:**

What does the Convert process do?

- A. Works directly against the database to transform data.
- B. Uses a Table Map to transform the data within a table.
- C. Transforms data in an Extract File.
- D. Works directly with the database to merge data.

**Answer: C**

**Question 4:**

An Archive File Collection is a list of Archive Files that are treated as a single data source by Open Data Manager (ODM). Which two statements are true regarding Archive Collections? (Choose two.)

- A. Use the Collections tab on the Archive Request Editor to specify the collection(s) in which the Archive File should be added automatically.
- B. An Archive File may belong to multiple Archive Collections, and an Archive Collection may contain multiple Archive Files.

TestKing [IBM 000-551](#) Exam Questions & Answers

- C. Archive Files contained within a collection do not need to be registered in the Archive Directory.
- D. ODM, by default, processes the Archive Files in the collections in ascending date order based on the dates the Archive Files were created.
- E. An Archive File containing multiple tables with the same names and creator ids, but with different DB Aliases, may be stored in an Archive Collection.

Answer: A,B

Question 5:

When using InfoSphere Federation Server to access Optim extended data sources, what must be created to define a federated object?

- A. A wrapper, a system definition, a user mapping, and a nickname
- B. A wrapper, a server definition, a user mapping, and a DB Alias
- C. A wrapper, a system definition, a nickname, and a DB Alias
- D. A wrapper, a server definition, a user mapping, and a nickname

Answer: D

In the exhibit, which Optim project planning message is emphasized?

- A. Average project length is only about 12 weeks.
- B. All Optim projects must include an Optim implementation manager.
- C. Optim projects requires customer team involvement.
- D. Optim projects must have a full-time system architect.

Answer: C

**Question 7:**

When positioning ODM as a mechanism to view archived data, which two capabilities would you promote? (Choose two.)

- A. Only ODM provides for access to individual archive files and collections of archive files.
- B. ODM will provide for the same levels of accessibility regardless of the underlying storage medium.
- C. ODM can implement row level security for archive data within the Attunity Workspace layer.
- D. ODM facilitates Native Application Access.
- E. ODM can be run stand-alone without Optim on the same machine.

**Answer: A,D**

**Question 8:**

When creating an Access Definition, why it is important to remember when a relationship is traversed from child to parent?

- A. Any selection criteria used for the parent table determines the rows retrieved.
- B. Any selection criteria for the parent table is ignored.
- C. Any selection criteria for the child table is ignored unless used in an "AND" selection.
- D. Any selection criteria on the parent is automatically inherited by the child.

**Answer: B**

**Question 9:**

Regarding the Optim Open Data Manager (ODM), which statement is true?

- A. ODM is used to make all extended data sources seem like Oracle views.
- B. ODM is used to expose Optim Archive files to applications.
- C. Archive file security is ignored if you use Optim ODM.
- D. Optim Extract files exposed by ODM can be queried with normal ANSI SQL statements.

**Answer: B**

**Question 10:**

Which statement is true about Optim relationships?

- A. Primary keys are required.
- B. Foreign keys are required.
- C. Corresponding columns must have identical data types and attributes.
- D. At least one column in a corresponding pair must be specified by a column name.

**Answer: D**

**Question 11:**

The Optim Directory is built as part of the installation on the first workstation. Which three statements are correct about the Optim Directory? (Choose three.)

- A. The Optim Directory can reside on DB2 LUW, Oracle or Informix.
- B. There may be more than one Optim Directory and they may reside on both Windows and UNIX.
- C. The Optim Directory can reside on DB2 z/OS, Teradata or SQL Server.
- D. The definitions can be migrated from one Optim Directory to another with an Export and Import process.
- E. The Optim Directory is always stored on a Windows workstation.

**Answer: A,B,D**

**Question 12:**

When editing a table, one can right-click on any column and select "Lock". What does the Lock function do?

- A. "Lock" will request a table lock from the DBMS so that no other changes can be made.
- B. "Lock" will lock the column in place so that it is always visible during horizontal scrolling.
- C. "Lock" will lock the editing session so that no additional changes can be made to that column.
- D. "Lock" will lock the named Edit Request and finalize it in the Optim Directory.

**Answer: B**

**Question 13:**

How do you start the Optim Server when it is installed on Windows?

- A. It must be started as a service and initiated by root.
- B. It must be started manually as a process by any user.
- C. It must be started by a user with the ability to log on as a batch job.
- D. It must be started automatically when the machine is started.

**Answer: C**

**Question 14:**

You are installing IBM Optim into an Oracle environment. Which statement is correct about user permissions?

- A. The installation user requires the DBA role.
- B. The installation user is the only user that can run Optim.
- C. The installation user's permissions must be deleted once the installation is complete and all DB Aliases are created .

## TestKing [IBM 000-551](#) Exam Questions & Answers

D. The installation user must have the SELECT ANY DICTIONARY role, unless the Oracle 07\_DICTIONARY\_ACCESSIBILITY initialization parameter is set.

**Answer: D**

### Question 15:

Who has the primary responsibility for archiving and associated business requirements in an Optim Archiving project?

- A. The client subject matter experts (SMEs) within the project team, validated, and documented by the project leads.
- B. The client project manager, validated by the client SMEs..
- C. The client application developers, approved by the project sponsor.
- D. The IBM Optim team, validated, and documented by the client project leads.

**Answer: A**
