

**HP0-145**  
**CCI Fundamentals for Solution Architects**

**Exam number/code:** HP0-145  
**Exam name:** CCI Fundamentals for Solution Architects  
**Questions & Answers:** 95 Q&A  
**Related Certifications:** [ASE](#)

**Hundreds of people each day pass their IT certification exams with Testking guaranteed certification resources and training kits.**

Use the [HP HP0-145](#) questions and answers to practice for your next HP certification exam. If you don't pass – you don't pay! Testking has the first and only 100% product satisfaction and exam passing guarantee. Advanced practice questions and answers help drive the information into your routine thinking and surpass HP0-145 brain dumps in retention and skill building.

[HP](#) HP0-145 exam answers and practice questions can be used at home or office, installable on up to two PCs, or print the questions and answers to take with you and train on-the-go! HP HP0-145 preparation tools are the perfect fit for any HP certification candidate with [HP0-145](#) training materials for every level of entry.

**Exam Engine Features**

Control your IT training process by customizing your practice certification questions and answers. The fastest and best way to train.

- \* Truly interactive practice tests
- \* Create and take notes on any question
- \* Retake tests until you're satisfied
- \* YOU select the areas of the exam to cover
- \* Filter questions for a new practice test experience each time
- \* Re-visit difficult questions

**Exam: HP0-145 Certification Questions & Answers**

**Question 1:**

A rigorous Site Assessment is a critical prerequisite to a good design. What are three things that must be included in a good site assessment? (Choose three.)

- A. Presence of sway mitigation buffers
- B. Are there hot and cold aisles in the datacenter
- C. Number of users who will be using Smart Cards
- D. Will end users be doing local printing or just network printing
- E. Does the customer datacenter comply with requirements detailed in the International Disabilities Access Act(IDAA)

**Answer: B,C,D**

**Question 2:**

What are two ways that CCI enhances end users remote access experience? (Select two.)

- A. CCI supports all forms of universal decryption
- B. Unlike some other remote access protocols, RDC works at almost any network speed (though faster is better)
- C. CCI is in accordance with the International Disabilities Act for Personal Computing Devices (IDAPCD) by enabling Universal metronome scaling
- D. Because CCI uses Microsoft's Free Remote Desktop Connection (RDC) software, end users can download RDC to their personal computer with network connectivity and log on to their blade

**Answer: B,D**

**Question 3:**

What tools should you use to create a CCI design for TestKing.com? (Choose three.)

- A. CCI Power Calculator
- B. CCI Real-estate sizer
- C. CCI design template
- D. CCI BOM (Bill of Material) Configuration
- E. CCI Automated Thin Client Selector Tool (TCST)

**Answer: A,C,D**

**Question 4:**

In which tier HP Session Allocation Manager (SAM) validate Logon Information?

- A. Virtual Tier
- B. Access Tier
- C. Compute Tier
- D. Resource Tier

**Answer: C**

**Question 5:**

What are two situations where dynamic deployments would be a better choice than static deployments? (Choose two.)

- A. Users require administrator right
- B. Reallocating a user from a failed blade PC with no IT staff intervention
- C. Running applications that do not run when the hard drive is locked down
- D. Contingent Workers who have restricted access to data and applications

**Answer: B,D**

**Question 6:**

The Integrated Administrator (IA) can report a cooling fan failure. Even though you can swap out a new fan for a failed one without interrupting your end users, you should replace the fan at your earliest convince. When you physically remove the fan assembly, you should be careful not to pull it out too far. What will happen if you pull the fan assembly out too far?

- A. The power supplies could drop to the floor
- B. The fan blades will be sent and damaged when they come into contact with the sides of the rack
- C. The power cord to the fan assembly from inside the enclosure can become unseated, shutting down all fans
- D. All end users will receive an automatic notification that the HW they are using is being serviced and they should log off immediately

**Answer: C**

**Question 7:**

Server Based Computing(SBC) and CCI are both offered by HP. They are competing solutions. What are two criteria that imply SBC would be a better fit for a work group than CCI? (Choose two.)

- A. End users who do a limited set of tasks
- B. End users who need a dedicated computing device
- C. End users who only need to access a few applications
- D. End users who work off network on portable with 3-D geological rendering software

**Answer: A,C**

**Question 8:**

What are three critical factors for a large and successful CCI engagement? (Choose three.)

- A. Well Qualified Account
- B. HP Storage must be part of the deal
- C. Use of desktop PCs for grid computing
- D. Well defined success criteria for the pilot
- E. Customer willingness to use Windows XP as the client OS

**Answer: A,D,E**

**Question 9:**

## TestKing [HP HP0-145](#) Exam Questions & Answers

---

Factory Express is HP's highly capable configuration center that allows you to have the customer's CCI hardware shipped to them already installed in racks via shock-proof pallets. You should use Factory Express as much as possible, but to do so you must first contact Factory Express and work with them to complete documentation. What documentation must be completed?

- A. HP Implementation Design (HPID)
- B. Customer Design Template (CDT)
- C. Customer Intention Document (CID)
- D. Factory Express Rapid Deployment Resource (FERDR)

**Answer: C**

### Question 10:

As part of their CCI Implementation, the customer wants you to plan for the migration of their end users from desktop PCs to thin Clients. Which two tasks should you plan for? (Choose two.)

- A. Installation of new routers to support contra data flow
- B. The addition of anti-sway mitigation buffers in the datacenter
- C. Creation of a library for all CCI documentation related to the Blade PC
- D. Physically Remove the Desktop PCs and replace them with Thin Clients
- E. Move End user data files from the PCs to an accessible storage device

**Answer: D,E**

### Question 11:

Which of the following Operating Systems would have the latest Administrative Templates in a CCI environment?

- A. Windows XP SP2
- B. Windows 2000 SP4
- C. Windows NT 4.0 SP4
- D. Windows Server 2003 SP1

**Answer: A**

### Question 12:

HP Systems insight Manager (SIM) can be configured to perform actions on events it receives. Which are available default actions?

- A. Page, Email, Run Custom Command or Forward as WBEM Event
- B. Page, Email, Run Custom Command, Reboot System or Power Down System
- C. Page, Email, Write to System Log of Target, Forward as SNMP Trap or Deploy Image
- D. Page, Email, Run Custom Command, Assign, Forward as SNMP Trap, Write to System Log or clear event

**Answer: D**

### Question 13:

After you complete a site Assessment you host the Planning Session before you start on the Design. The planning session is designed to ensure you have a clear understanding of the customer needs and a shared expectation with the customer about design and

implementation. Which four customer attendees are critical to a successful planning session? (Choose Four)

- A. Storage Lead
- B. Network Lead
- C. Corporate PR Lead
- D. Corporate Finance Lead
- E. Datacenter facilities Lead
- F. PC Image Creation and Deployment Lead

**Answer: A,B,E,F**

**Question 14:**

Which CCI recommended tools can be used to view the Enclosure to blade PC relationship for all enclosures? (Choose two.)

- A. HP Rapid Deployment Pack Physical View
- B. HP Session Allocation Manger - show enclosure relationship
- C. Physical View feature in the enclosure Integrated Administrator
- D. HP BladeSystem Tool included with HP Systems Insight Manager

**Answer: A,D**

**Question 15:**

TestKing.com uses IEEE 802.1q VLAN trunks and RSPT (IEEE 802.1w) in their network. They have asked you to design a CCI solution that will take advantage of these two technologies to best fit their infrastructure. Which three steps must you take to achieve the customers request? (Choose three.)

- A. Enable Spanning Tree
- B. Configure VLAN trunks appropriately
- C. Deactivate PVST Interoperability mode
- D. Configure IEEE 802.3ad Link Aggregation Groups
- E. Change Spanning-tree mode from MSTP to RSTP

**Answer: B,C,E**
