

HP2-Z05

Selling the HP ProCurve Portfolio

Exam number/code: HP2-Z05

Exam name: Selling the HP ProCurve Portfolio

Questions & Answers: 61 Q&A

Related Certifications: [ASE](#)

Hundreds of people each day pass their IT certification exams with Testking guaranteed certification resources and training kits.

Use the [HP HP2-Z05](#) questions and answers to practice for your next HP certification exam. If you don't pass – you don't pay! Testking has the first and only 100% product satisfaction and exam passing guarantee. Advanced practice questions and answers help drive the information into your routine thinking and surpass HP2-Z05 brain dumps in retention and skill building.

[HP](#) HP2-Z05 exam answers and practice questions can be used at home or office, installable on up to two PCs, or print the questions and answers to take with you and train on-the-go! HP HP2-Z05 preparation tools are the perfect fit for any HP certification candidate with [HP2-Z05](#) training materials for every level of entry.

Exam Engine Features

Control your IT training process by customizing your practice certification questions and answers. The fastest and best way to train.

- * Truly interactive practice tests
- * Create and take notes on any question
- * Retake tests until you're satisfied
- * YOU select the areas of the exam to cover
- * Filter questions for a new practice test experience each time
- * Re-visit difficult questions

Exam: HP2-Z05 Certification Questions & Answers

Question 1:

TestKing.com wants to deploy a switch at the edge of the network that has basic Web management capabilities and supports Gigabit connections. What is the lowest cost HP ProCurve Switch Series that will match his needs?

- A. 1400
- B. 4200vl
- C. 2520
- D. 1800

Answer: D

Question 2:

Which HP ProCurve products share common accessories and software and therefore offer a more unified infrastructure?

- A. 4200vl and 6600 Switch Series
- B. 5400zl and 8200zl Switch Series
- C. 3400cl and 3500yl Switch Series
- D. 2810G and 2910al Switch Series

Answer: B

Question 3:

A customer has a relatively simple network that still requires high security. She wants Light Layer 3 switches that can filter traffic with access control lists (ACLs). Which HP ProCurve Switch Series should you suggest?

- A. 2520
- B. 2610
- C. 2810
- D. 3500

Answer: B

Explanation:

2520 and 2810 has ACL option, but 3500 is Full L3.

Question 4:

Which type of network architecture conforms to user, application, and organizational needs, allowing customers to maximize network productivity and reduce complexity?

- A. open network
- B. unified network
- C. secure mobility network
- D. adaptive network

Answer: A

Question 5:

What has HP ProCurve designed in several of its high-speed switches to consolidate the function of many individual chips, including software, onto a single chip?

- A. VoIP
- B. ASIC
- C. IPS
- D. PoE

Question 6:

Which advantage does an MSM760 Mobility Controller have over an MSM760 Access Controller?

- A. It can control more guest access users.
- B. It provides fast roaming and roaming across subnets.
- C. It supports either centralized or distributed forwarding of traffic.
- D. It supports APs that provide 802.11n connectivity.

Answer: B

Explanation:

answer is in HP product bulletin - Advanced roaming on the Mobility Controllers and Intra-/Inter-Subnet Roaming

Question 7:

Which HP ProCurve switch is unmanaged and offers Gigabit ports?

- A. 408
- B. 1400-8G
- C. 2124
- D. 1810G-24

Answer: A

Question 8:

Which feature set the HP ProCurve 1810G Switch Series apart from the HP ProCurve 1800 Switch Series?

- A. It provides 10/100/1000 connectivity in both 8 port- and 24 port- models-
- B. The 1810G Switch Series is fanless, which makes it nearly silent during operation-
- C. The 1810G Switch Series has enhanced security options such as encrypted management traffic.
- D. The 1810G Switch Series is a managed switch whereas the 1800 Switch Series is Web-managed-

Answer: C

Explanation:

(enhanced security options) (product description)

Question 9:

Which OSI Layer functionality enables a switch to route traffic?

- A. Network Layer (Layer 3)
- B. Physical Layer (Layer 1)
- C. Data Link Layer (Layer 2)
- D. Transport Layer (Layer 4)

Answer: A

Question 10:

What is the advantage of an optimized WLAN architecture?

- A. It offers central management and always sends traffic through the controller, which enables a high level of intelligence across the entire wireless system.
- B. Wireless clients are automatically set up for 802.1X authentication by the appropriate wireless controller, enabling a more secure and efficient deployment.
- C. It eliminates needless traffic through the controller and LAN backbone, enabling users to enjoy better performance and more responsive applications.
- D. The controller provides all of the intelligence for the WLAN while APs simply provide the wireless signal.

Answer: C

Question 11:

Which HP ProCurve product enables devices with Ethernet or serial ports to connect to a wireless network?

- A. MSM760
- B. MSM422
- C. M111
- D. MSM313

Answer: D

Question 12:

What does local wireless meshing enable MultiService Mobility (MSM) Access Points (APs) to do?

- A. support 802.11n
- B. extend network connectivity into areas without Ethernet cabling
- C. monitor wireless traffic and report information back to RF Manager
- D. automatically adjust their power to provide failover for a failed neighbor AP

Answer: B

Question 13:

Which HP ProCurve Switch Series should you offer to a customer who wants to install the most basic Layer 2 switch that provides plug-and-play deployment and inventory tracking for multimedia devices such as Voice over IP (VoIP) phones?

- A. 1800
- B. 2610-PWR
- C. 3500
- D. 2520-PoE

Answer: D

Explanation:

1800 and 2610 has no inventory tracking, 3500 - full L3 switch

Question 14:

Which HP ProCurve Switch Series offers full Layer 3 capabilities?

- A. 2610
- B. 4200vl
- C. 3500
- D. 2810

Answer: C

Question 15:

Which HP ProCurve product must a customer purchase to use Identify Driven Manager (IDM)?

- A. ProCurve Manager Plus (PCM+)
- B. ProCurve Mobility Manager (PMM)
- C. Threat Management Services zl Module (TMS)
- D. Network Immunity Manager (NIM)

Answer: A
